

The "GAP" spacer plates are ideal for levelling to the millimetre from 1 mm - 5 mm in many applications. They are an ideal assembly aid for window and door installations as well as for substructures of all kinds, e.g. in drywall and interior construction. As they are made of solid material, they are also suitable as glazing blocks. The Easy-Clip function: A firm hold is achieved by clamping screws or plugs with a diameter of 3mm - 10mm during installation. The "GAP" spacer plates are also ideal for aligning and levelling furniture and decking. For greater distances, several spacer plates can be used for levelling.

## Product specification

Article Number	Strength mm	Color	Bag Contents	Outer carton Contents
11 620	1	white	100 pcs.	14.000 pcs.
11 620	2	blue	100 pcs.	9.000 pcs.
11 620	3	red	100 pcs.	6.000 pcs.
11 620	4	yellow	100 pcs.	4.500 pcs.
11 620	5	green	100 pcs.	4.000 pcs.
