

Technical data sheet

Plasterboard dowels „POWER“, plastic

The "POWER" plasterboard plug made of tough, elastic plastic is ideal for use when fastening to plasterboard and lightweight building boards. When the screw is screwed in, the 4 legs of the plug are pulled against the back of the building material. The collar on the head prevents it from slipping into the drill hole. This plug is suitable for use with chipboard screws.

Temperature resistance: -40°F to +158°F

Safety coefficient: 5
