

Technical data sheet

Hard foam board dowels „PSD“

The "PSD" rigid foam board plug is suitable for lightweight fastenings on rigid foam boards (Styropor®, Styrodur®, polystyrene or PU rigid foam boards, ETICS boards) and soft building materials. No additional setting tool is required when screwing in, a standard Phillips screwdriver is sufficient. No pre-drilling is necessary and no cold bridge is created. This plug is suitable for use with wood and chipboard screws.

Temperature resistance: -40°F to +158°F

Safety coefficient: 5
