

The "ISO-STAR" insulating panel holder is a cost-effective fixation for full thermal insulation panels and other pressure-resistant insulating materials on solid building materials such as concrete, brick and sand-lime brick. High-quality plastic ensures a permanent, secure hold. The simple handling and the low setting depth from 20 mm enable extremely time-saving installation: drill a hole + hammer in the "ISO-STAR" insulating panel holder = done

Temperature resistance: -40°F to +158°F

Safety coefficient: 5
